### PROFILE

Passionate Frontend Developer with expertise in React.js, Redux, TypeScript, JavaScript (ES6), and Tailwind CSS. Proficient in building responsive and scalable web applications with a focus on user experience, state management, and modern UI frameworks. Skilled in collaborating with teams to deliver high-quality software solutions, leveraging tools like Git, npm, and Bootstrap.

### WORK EXPERIENCE

#### Wizinoa - Junior Software Developer

06/2024 - Present

##### Enterprise Resource Planning System:

Designed and developed a comprehensive ERP system to streamline Inventory, Order, Employee, and Expense Management workflows.

##### Key Responsibilities and Contributions:

- Implemented role-based authentication for secure access by admin and employee users.
- Automated stock tracking and packaging updates based on order verification, reducing manual errors by 40%.
- Developed a leave management calendar that dynamically adjusts timelines for orders and packing based on employee availability.
- Leveraged Redux/toolkit for state management and seamless API integration.
- Technologies Used:** React.js, Redux, Bootstrap, Redux/toolkit, JavaScript

##### CRM Application for Service with Invoice Bill Management

Built a Customer Relationship Management (CRM) system to handle service requests, invoice bill generation, and leave scheduling for employees.

##### Key Responsibilities and Contributions:

- Designed a responsive user interface using Tailwind CSS.
- Developed functionality for invoice generation, tracking, and export, improving data processing efficiency.
- Implemented a file import/export system to simplify data handling.
- Technologies Used:** React.js, Redux Toolkit, Tailwind CSS, JavaScript

##### Static Website Development for Investments and Planning:

Designed and deployed a static website showcasing financial services with a modern, responsive layout.

##### Key Responsibilities and Contributions:

- Delivered an SEO-friendly interface using React, TypeScript, and Tailwind CSS.
- Ensured pixel-perfect design and optimized performance across all devices.

##### E-Commerce Website for Product Store: (Currently Working)

Developed an e-commerce application featuring product cataloging, user authentication, and payment gateway integration.

##### Key Responsibilities and Contributions:

- Developed an e-commerce application featuring product cataloging, user authentication, and payment gateway integration.
- Built core functionality for user login, product listing, shopping cart, and checkout.
- Integrated secure payment gateway solutions.
- Ensured seamless state management using Redux and responsive layouts with Tailwind CSS.
- Technologies Used:** React.js, Redux Toolkit, Tailwind CSS, JavaScript

#### TechnoHacks - Web Developer Internship

01/2024 - 03/2024

- Built responsive e-commerce websites using React.js, CSS3, and Redux for state management. Optimized user experience through cross browser compatibility and responsive design.
