---

## OBJECTIVE

---

Passionate Computer Science graduate with proficiency in Full Stack Java Development, SQL, web technologies, and software testing. Aiming to secure an entry-level role to design, develop, and ensure the quality of innovative software solutions while advancing my technical skills.

## EDUCATION

---

- **Full Stack Java Development&Testing**  
QSpiders Software Testing and Development Institute, Chennai  
*Skills: Java, SQL, Web Technologies, Manual Testing*  
**Year of Completion: 2025**
- **B.E. Computer Science and Engineering**  
Chettinad College of Engineering and Technology, Karur  
**Year of Passing: 2024**  
*CGPA: 7.87*
- **B.Sc. Physics**  
PGP College of Arts & Science, Namakkal  
**Year of Passing: 2021**  
*Percentage: 75%*
- **HSC (Class 12)**  
Government Boys Higher Secondary School, Thottiyam  
**Year of Passing: 2018**  
*Percentage: 50%*
- **SSLC (Class 10)**  
St Mary's High School, Thottiyam  
**Year of Passing: 2016**  
*Percentage: 72%*

## SKILLS

---

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Java, Python, PHP
- **Database:** SQL
- **Soft Skills:** Problem-solving, Debugging, Communication, Teamwork, Time Management, Adaptability, Critical Thinking

## ACHIEVEMENTS

---

- 2nd Prize in Web Development competition
- Python for Data Science (NPTEL) certification
- Full-Stack Python Programming (GUVI)
- Full-Stack Web Development (Infosys Springboard)
- Published a paper in the *IJARESM Journal*

## PROJECTS

---

- **Quarantine Alert System**  
*Backend: Java*  
Developed a system that notifies users about quarantine zones and provides relevant updates on affected areas.
- **LiFi Technology for Network Congestion Control**  
*Technology: IoT*  
Engineered a solution using LiFi technology to reduce network congestion and improve data transfer speed.
- **GIS for Deep Sea Fishing**  
*Frontend: React Native, Backend: .NET, SQL*  
Built a system that integrates geospatial data to assist fishermen with optimal fishing locations.
- **Expert Supreme Court Decision Predictions**  
*Frontend: HTML, CSS, JS, Backend: Python*  
Implemented AI to predict potential outcomes of Supreme Court decisions based on historical data.
- **Orphanage Management System**  
*Frontend: HTML, CSS, Backend: PHP, MySQL*  
Created an automated platform to streamline orphanage management processes and improve operational efficiency.

## INTERNSHIPS

---

- Web Development Intern at Code Bind Technology, Trichy
- Full Stack Java Development&Testing
- Completed In-Plant Training in Web Development
- Corporate Training on Aptitude Development

## WORKSHOPS & CONFERENCES

---

- Workshop on Android Development
- Conference on Recent Trends in Advanced Materials (Physics)

## PERSONAL DETAILS

---

- **Date of Birth:** 07/05/2001
- **Age:** 23
- **Gender:** Male
- **Languages:** Tamil, English
- **Address:** 7/164, Ganeshpuram, Thottiyam, Trichy District - 621215
