

## SUMMARY

Motivated Software Developer with expertise in React, seeking to join a forward-thinking team to contribute innovative solutions and technical skills.

## EDUCATION

### KGiSL Institute of Technology

Bachelor's of Engineering - Electronics and Communication  
2016 - 2020

## SKILLS

- React JS
- Node JS
- Express JS
- HTML
- CSS
- JavaScript
- Bootstrap
- MongoDB

## PROJECTS

### Online Book Store

- Developed a Book Management Application using the MERN stack, facilitating easy addition, updating, and deletion of book details.
- Implemented a user-friendly interface for adding and updating book information in the store.
- Enabled seamless deletion of book details, enhancing data management efficiency.
- Utilized MongoDB for secure and scalable storage of book-related data.

### Student Registry

- Developed a Student Registry App using MERN stack. Simplified addition, updating, and deletion of student information.
- Designed a user-friendly interface for smooth data management.
- Ensured secure and scalable storage through MongoDB.

## WORK EXPERIENCE

### Cognizant Technology Solutions - Feb 2022 - May 2024

#### Programmer Analyst

##### Pearson Plus Application

- Developed and enhanced frontend functionalities of a dynamic web application using the MERN stack, specializing in React.js for efficient, scalable user interfaces.
- Expertly managed application state using Redux, ensuring consistent and predictable behavior across the platform, and optimized state management with React Context for targeted scenarios, improving modularity and reusability.
- Resolved bug fixing tickets efficiently, improving application performance and user experience.
- Led version upgrades, Keeping the project aligned with the latest advancements and Implemented CSS changes, enhancing user interface aesthetics

##### Job Portal Application

- Created a Job Application Platform with the MERN stack, serving the needs of both recruiters and applicants.
- Empowered recruiters to post job opportunities, enhancing the platform's usability.
- Implemented an application submission feature, allowing applicants to easily apply for posted positions.
- Secured storage and management of recruiter and applicant details using MongoDB.

### ERS Information Systems - Mar 2021 - Jan 2022

#### Virtual Assistant

- Provided comprehensive virtual support to US clients, managing administrative tasks, scheduling appointments and facilitating effective communication to optimize workflow and productivity.

## CERTIFICATIONS

- AWS Certified Cloud Practitioner
