Skills

- Nextjs/ React Js
- Python (Django)
- PHP (Laravel)
- JavaScript/Nodejs
- SQL
- Docker Basics
- C Language
- Postgresql, MySQL databases

Projects

- **QR-LINK**
Developed a React and Nextjs based web application for nurses attendance marking which uses Android app developed in React Native for real-time attendance marking.
- **Endeavour Web Framework**
Developed a minimalistic web framework in Dart language, providing a robust structure for building scalable and efficient web applications. Integrated features like routing, middleware, and state management for enhanced developer productivity.
- **Adweb**
Developed an ad network platform similar to Google AdMob, enabling users to create, manage, and display banner advertisements with real-time analytics and campaign tracking. It was developed in HTML5, JavaScript and PHP Laravel for full stack web development and Flask for APIs.
