### PROFILE SUMMARY

Aspiring MERN Stack Developer with expertise in MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript, Redux for state management, and RESTful API integration. Skilled in HTML, CSS, and responsive web design to create user-friendly interfaces. Hands-on experience with Firebase authentication and real-time database management. Passionate about problem-solving, writing clean code, and continuously learning modern web technologies.

### PROJECT

#### Project - 1

##### Greenden Website

##### (HTML, TailwindCSS, Javascript)

- A searchable collection of plants with details on care instructions, water needs, and sunlight preferences.
- The structure of the app, including plant listings, user interfaces, and forms.
- A utility-first CSS framework to style the components, ensuring a modern and responsive layout.
- Used for interactive features, such as dynamic calendar entries, plant care reminders, and form validations.
- The app ensures a seamless user experience across devices, from desktops to smartphones, using Tailwind CSS for a modern, responsive interface.

#### Project - 2

##### NOSTRA E-commerce Website

- Designed the page using HTML for structure and CSS for styling, ensuring it was clean, professional, and responsive across all devices.
- Used JavaScript to dynamically update product listings based on selected filter options, ensuring a seamless and responsive user experience.
- Developed a user-friendly contact page for the NOSTRA e-commerce platform, allowing customers to easily reach out for inquiries, feedback, or support.

### SOFT SKILLS

- 1.**Communication:** Effective communication to facilitate collaboration and understanding.
- 2.**Teamwork:** Strong team player with a history of successful group contributions.
- 3.**Adaptability:** Quick to adjust and thrive in changing environments.
- 4.**Collaboration:** collaborate effectively with cross-functional teams.
