Udemy Certified

EXPERIENCE

Full Stack Developer - GenLab IB

December 2024 - January 2025

-Delivered a fully functional tech website using Next.js, focusing on performance optimization and modern design principles.

-Currently developing an e-commerce learning based project for training sessions, integrating interactive components and seamless user experiences.

Full-Stack Developer Intern - AK INFOPARK

September 2024 - october 2024

-Worked on the MERN stack, Laravel developing and optimizing full-stack applications.

- Gained hands-on experience in database management and backend technologies.

PROJECTS

BLOOD BRIDGE - MERN [project link](#)

It is designed to connect blood donors and recipients in the Kanyakumari region. Built with React, Vite, and Tailwind CSS, it features a seamless router-based navigation for a user-friendly experience. The backend is built with Node.js, Express.js and MongoDB to manage and organize donor and recipient data effectively.

EXTRACURRICULARS

CONTRIBUTOR - GSSoc Ext - october 2024 - November 2025

Contributed to open-source projects as part of GSSoC Ext 2024.
