PROFILE SUMMARY

Looking for an opportunity to utilize my technical proficiency in areas such as software development lifecycle, debugging, and continuous integration to support the growth and success of a forward-thinking organization.

EDUCATION

BE - Computer Science

Akshaya College of Engineering and Technology- 2016-2020

Higher Secondary

Presentation Convent Matric Higher Sec School -2015-2016

WORK EXPERIENCE

Meynikara Technologies

Dotnet developer

Sep 2024 - Present

- API Development:** Developed API and services for email and SMS sending applications using the Microsoft .NET framework and experienced in utilizing technologies such as .NET MVC, C# in VS Code, and Visual Studio.
- Database Management:** Writing efficient SQL queries, Stored procedures using MicroSoft Sql server management and worked in SSRS service for Report building.
- Testing and Debugging:** Conducted unit testing, integration testing, and end-to- end testing to ensure code quality and functionality. Used debugging tools such as POSTMAN and swagger for API testing

Projects

PrintXpress- C#, DOTNET MVC

- Developed Api for sending emails and SMS for Clients in the Daiche Insurnace Corporation.
- Created Services for sending emails templates and pdf attachments

Logixhealth Solutions PVT LTD

Junior Software Engineer

April 2022 - March 2024

- Application Development:** Developed web applications using the Microsoft .NET framework and experienced in utilizing technologies such as ASP.NET MVC, C# in VS Code, and Visual Studio.
- Front-end Development:** Proficient in crafting intuitive user interfaces and developing responsive web pages. Skilled in HTML, CSS, and JavaScript for designing dynamic and user-friendly interfaces. Experienced in implementing client-side functionality to enhance user experience. Familiar with front-end frameworks such as Angular for building interactive web applications.

SKILLS

- Dotnet MVC
- Rest Api
- Web Api
- Angular
- Micro Services
- Javascript
- Jquery
- Wcf services
- C#
- Sql
- Python
- SSRS
- HTML 5
- Ado Dotnet

Developer Tools:

- VS Code,
- Visual Studio

Technologies/Frameworks:

- DotNet Framework MVC
- Entity Framework
- DotNet Core

- **Back-end Development:** Built server-side logic and WCF services using C# in .NET framework. Designed and implemented scalable and efficient data models, business logic, and database interactions.
- **Database Management:** Designing and optimizing database schemas using Microsoft SQL Server or other relational database management systems. Writing efficient SQL queries, Stored procedures, managing indexes, and ensuring data integrity and performance.
- **Testing and Debugging:** Conducted unit testing, integration testing, and end-to end testing to ensure code quality and functionality. Used debugging tools and techniques to identify and resolve issues and bugs.
- **Deployment Activities:** Monitoring deployment pipelines and troubleshoot deployment issues as they arise. This involves monitoring build and release logs, investigating failures, and resolving issues to ensure successful deployments and minimize downtime

Projects

LogixFeedback- C#, DOTNET MVC-Agile Methodology,TFS

- Created customizable feedback forms to gather information about the patient experience, including ratings, comments, and suggestions.
- Designed the application with an intuitive interface that is easy for patients and healthcare professionals to navigate.
- Collected feedback from patients about their overall satisfaction with the care they received, including their interactions with healthcare staff, facilities, and the effectiveness of treatment.
- Worked in different user modules such as Admin modules, Reports Module, Survey module , Survey Builder module, Patient list module.
- Addressed SonarQube security hotspots, vulnerability and TFS Pipeline warnings.

Certifications

Python from Pantech solutions
