- Team work

PROFILE

Enthusiastic and skilled frontend developer with expertise in HTML5, CSS3, JavaScript, ReactJS, Bootstrap, and a solid foundation in MongoDB and Node.js. Proficient in version control with Git and GitHub. Eager to contribute to innovative and dynamic web development projects.

PROJECTS

Project-1

Online Grocery Website

(HTML5, CSS3, JS, REACT JS, BOOTSTRAP, MONGODB, NODEJS,)

- Developed a comprehensive online grocery website employing a full-stack approach. Crafted an engaging and user-friendly frontend using HTML5, CSS3, and ReactJS,
- seamlessly integrated with a robust backend powered by Node.js and MongoDB for efficient data management. and streamlined order processing & deploy in GiHub.

Project-2

Chatbot

(React js, javascript)

- Our project aims to create a sophisticated chatbot using ReactJS, a popular JavaScript library for building user interfaces.
- The chatbot will be equipped with features such as contextual understanding, personalized responses, and multi-platform compatibility.

Project-3

Journey on Travel Website

(HTML5, CSS3, Javascript, Bootstrap, AOS)

- The Travel website project aims to leverage frontend technologies to create an engaging and informative platform for users to explore.
- Using HTML, CSS, and JavaScript, the website offers a visually appealing interface with responsive design for seamless browsing across devices.
- Through this project, using Single page Application (SPA)
