Professional Summary

Results-driven **React.js Developer** with **2+ years of experience** in building responsive, high-performance web applications. Proficient in **React.js**, **Redux**, and **JavaScript**, contributing to a **30% performance improvement** through optimized code and **20+ reusable components**. Eager to deliver **SEO-optimized applications** and innovative solutions to enhance **user engagement**. Seeking a **React.js Developer position** to build scalable web applications and enhance user experiences.

Technical Skills

Programming Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend Frameworks & Libraries: React.js, React-Redux, Redux-Saga, React-Router-DOM, Chart.js, Next.js (Basic)

State Management: Context API, Redux, React Hooks

UI/UX & Styling: Tailwind CSS, Bootstrap, Material UI, Validate.js

API & Backend Communication: REST APIs, Axios, Fetch, JSON

Version Control & Collaboration: Git, GitHub, Source Tree

Development Tools: VS Code, Chrome DevTools

Education

BE - Mechanical Engineering - Arunai Engineering College, Tiruvannamalai 2016 – 2020

Software Developer Training - QSpiders Velachery, Chennai Dec 2021 – May 2022

Experience

Leora Infotech Private Limited, React Developer (Gummidipoondi, Tamil Nadu) Aug 2023 – Present

- Developed interactive, responsive, and accessible web applications using React.js, Redux, and Bootstrap.
- Created and maintained reusable components to improve development efficiency.
- Optimized performance, reducing page load time by 30% through code-splitting and caching.
- Improved SEO and page load times using Webpack and Lighthouse audits.
- Collaborated closely with UI/UX designers to enhance user experience and ensure mobile responsiveness.

– **Key Achievement:** Built reusable components, increasing development efficiency by 25%.

SVM Solutions and Technologies Pvt. Ltd, React Developer (Chennai, Tamil Nadu) June 2022 – Aug 2023

- Built scalable, dynamic, and reusable components using React.js and TypeScript.
- Implemented authentication flows, CRUD operations, and role-based access control.
- Integrated third-party REST APIs and optimized data fetching with Axios & Fetch.
- Enhanced application security and performance tuning for better load handling.
- Collaborated with cross-functional teams, reducing bug resolution time by 30%.

– **Key Achievement:** Improved application performance with optimized state management.

Key Projects

Intrvu Space – AI Hiring Application

intrvu.space/ 

- Developed user authentication, candidate management, and corporate user flow, enhancing recruitment efficiency

by 40%.

- Improved candidate experience with **automated AI-based interview scheduling**, reducing scheduling time by 50%.
- **Tech Stack:** React.js, Redux, Redux-Saga, React Router, Validate.js, Bootstrap.

Screening Space – AI Resume Screening Tool

[screening.space](#) 

- Implemented **login, candidate CRUD operations, and report generation modules**.
- Automated skill analysis and resume evaluation using AI algorithms.
- **Tech Stack:** React.js, Redux, Bootstrap, React Router.

Mack (Planned Maintenance System) – Maritime Application

July 2022 - Aug 2023

- Built features for job planning, inventory management, and compliance tracking.
- Developed a dashboard with real-time analytics & reporting.
- **Tech Stack:** React.js, Redux, Bootstrap, Validate.js.

Certification

- Certified as a **Software Developer** by QSpiders, specializing in software development principles and practices.

Additional Skills

- **Optimized app performance**, reducing load time by 30% through React.lazy() & Webpack.
- Developed 20+ **reusable components** for internal libraries, streamlining future projects.
- Experience in **Agile methodologies, JIRA**.

Language

- Tamil
- English
