CAREER OBJECTIVE

As a recent graduate, I am eager to apply my skills in challenging roles that contribute to organizational success. Committed to excellence, I aim to integrate seamlessly and deliver outstanding performance.

TECHNICAL SKILLS

- Python3 • React.js • Javascript • HTML5 • CSS3 • Tailwind CSS
- MySQL • Redux • Firebase • Vs Code • GitHub • Bootstrap

EDUCATIONAL QUALIFICATIONS

2020 - 2024 | Jeppiaar Engineering College

Bachelor of Engineering - Computer Science and Engineering

PROJECTS

1. NetflixGPT ReactJS Web Application

- Developed a web application using ReactJS for the frontend, leveraging Redux for state management to ensure optimal performance and maintainability.
- Implemented Firebase for user authentication, hosting, and deployment, streamlining the backend infrastructure and enhancing security.
- Integrated APIs from The Movie Database (TMDb) and OpenAI to create dynamic content and provide personalized movie recommendations using AI-based algorithms.

2. Agriculture Crop Recommendation With ChatBot

- Created a crop prediction system using Python, Flask, and Kaggle data.
- Implemented machine learning models including Random Forest, Decision Trees, k-Nearest Neighbors (KNN), and neural networks.
- Enhanced user interaction with a chatbot powered by NLTK for natural language processing.

3. Clone of YouTube

- Developed a ReactJS application to fetch and display videos from the YouTube API.
- Utilized JavaScript, ReactJS, and Tailwind CSS for responsive design and smooth user experience.
- Integrated API endpoints to enable real-time video search and display features.

CERTIFICATIONS

1. Certified in Mastering HTML/CSS/Javascript from ErrorMakesClever
2. Certified in React.js from Namaste Learning
3. Certified in Fullstack Development from Infosys | SpringBoard
4. Certified in ChatGPT from GUVI
5. Completed my Internship for Web Development from Codecasa
