EDUCATION

Ksr Institute Of Technology
Diploma | Nov-2017
| **83%** | Tiruchengode.

SKILLS

Programming Language: |

Javascript

Frontend: ReactJs | Javascript |

Redux | HTML | CSS |

Styled-Components

Backend: NodeJs | ExpressJs

Database: MongoDB | Mongoose

Concepts: Object-Oriented

Programming | Data Structure &
Algorithm

Tools: | GitHub | Linux | Windows

CERTIFICATIONS

- JavaScript By Free Code Camp
- Responsive Design By FCC

CODING

Solved **200+ problems** on
Geeks for Geeks and
Leetcode under the handle
marudhupandiyan09.

LANGUAGES

- Tamil (Fluent)
- English (Fluent)

PROJECTS

2022 - Present

LOGIN JWT FULL AUTHENTICATION

- Planned and implemented a user authentication system following the **MVC** pattern, utilized React.js for the frontend and Node.js for the backend, with good login functionality.
- Integrated Nodemailer to seamlessly send dynamic OTPs to users for enhanced authentication.
- Implemented a secure and efficient user authentication system, utilizing industry best practices and encryption algorithms, to ensure seamless login functionality and protect user data in the projects.

SOCIAL MEDIA APPLICATION

- Executed and exposed RESTful APIs to facilitate seamless communication between the frontend and backend components of the social media application.
- Express.js is a backend framework used for handling API routing, request handling, and middleware integration, improving request processing efficiency.
- Utilized MongoDB and Mongoose for data storage, retrieval, and manipulation.

Tools : **MERN**

GitHub Repo : <https://github.com/AngelMarudhu/MemoriesFS.git>

LINKEDIN & AIRBNB APPLICATION

- Worked client-side development with React, utilising libraries like React Router, Redux, and styled components, and Impressive user interface responsiveness.
- Handled HTTP requests and responses efficiently, good reduction in data response time.
- Utilized MongoDB and Mongoose for efficient data storage and retrieval, reducing database access time and manipulation.
