

## CARREER OBJECTIVE

An aspiring Java developer, having 1.5 years of experience, intended to work in an environment, which provides an opportunity for constantly striving to explore, innovate & excel in attaining organizational and my individual goals.

## PROFESSIONAL SUMMARY

- Strong background in designing, implementing, testing, and debugging applications.
- Have hands on experience in Core Java, Spring boot, Microservices, Rest API, MySQL.
- Proficient on working towards client requirements and providing end to end delivery.
- Eager to contribute my technical expertise and problem-solving abilities to drive innovation in a dynamic development environment.

## WORK EXPERIENCE

- Currently Working as Java developer in TCS since Oct 2023

## PROJECTS

### ❖ Health Insurance and Management System

**Description:** Developed a comprehensive IES application that as part of this application, we are providing Health and insurance planes. Utilized Java, Spring Boot to create a user-friendly, secure, and scalable platform.

**Role: Backend**

**Developer**

**Responsibilities:**

- Responsible for contributing to all the phases of the development lifecycle.
- Developed and maintained micro services-based application using **Core Java** and **Spring Boot**.
- Collaborated with cross-functional teams to define and implement **Restful APIs**, ensuring seamless communication.
- Implemented **Spring Data JPA** and **Hibernate** for efficient database interactions.
- Utilized **JDBC** for low-level database connectivity and custom query execution.
- Worked with **MySQL** for database design, optimization, and management.
- Created and executed unit tests using **Mockito** and **JUnit** for achieving high code coverage and reliability.
- Assisted in troubleshooting and resolving technical issues, providing timely support to the operations team.
- Handled deployment of application in Staging, QA, and Production environments.
- Developed and maintained frontend components using **JavaScript** to enhance user interaction and experience.

**Key Accomplishments:**

- Recognized as an **Outstanding Performer** for consistently exceeding expectations & handling complete PI end-to-end development solely as a Java developer.

## TECHNICAL SKILLS

- Programming Languages: Java
- Architecture: Microservices
- Methodologies: Agile
- Web Technologies: Servlets, Restful Webservices
- Database Technologies: MYSQL, OracleSQL
- Web Frameworks: Spring Boot, Spring DataJpa
- Version Control: Bitbucket, Git, Git Bash
- IDE Tools: Eclipse, IntelliJ IDEA, VS code
- Frontend Technologies: HTML/CSS, Javascript
- Code Review Tools: SonarQube
- Testing Tool & Framework: Postman, Junit, Splunk, ServiceNow, Jira, Mockito, Docker, Jenkins(CI/CD),Kubernetes

## EDUCATION

| Course | Institution  | Year of Passing | Percentage |
|--------|--|-----------------|------------|
| BCA    | VIT – Vellore Institute of Technology, Vellore         | 2023            | 84.5       |
| HSC    | Sri Saraswathi Vidyalaya Matric Hr.Sec School, Madanur | 2020            | 71         |
| SSLC   | Sri Saraswathi Vidyalaya Matric Hr.Sec School, Madanur | 2018            | 87.6       |

## DECLARATION

I hereby declare that the details furnished above are true and correct to the best of my knowledge.
