## PROFESSIONAL SUMMARY:

**Frontend Developer** with over **1 year of professional experience** in **designing, developing, and maintaining** scalable web applications using **Angular, TypeScript, JavaScript, HTML, CSS, React(basic) and Bootstrap**. Skilled in creating intuitive and responsive user interfaces, ensuring a seamless user experience across devices.

- **Proficient in Angular development**, including components, directives, services, routing, dependency injection, and RxJS for reactive programming.
- Strong expertise in **form validation, event handling, animations, and state management** to build dynamic single-page applications (SPAs).
- Experience in **responsive web design** using Bootstrap and CSS frameworks to create visually appealing and user-friendly interfaces.
- Knowledge of **database management** with MySQL and PostgreSQL, handling schema design, queries, and data manipulation.
- Hands-on experience with **version control systems** like Git and Bitbucket, along with CI/CD tools for efficient development workflows.
- Adept at working in **Agile development environments (Scrum/Kanban)**, collaborating with cross-functional teams, and implementing innovative solutions.
- Passionate about **problem-solving, code optimization, and staying updated** with modern frontend technologies to enhance application performance.

## EDUCATION:

- **BE** –2023 -8.11 CGPA, AVS Engineering College, Salem, Tamil Nadu.
- **HSC** –2019 – 60.1%, Govt Boys Hr Sec School, Namakkal, Tamil Nadu.
- **SSLC** –2017 -87%, Govt Boys Hr Sec School, Namakkal, Tamil Nadu.

## TECHNICAL SKILLS:

<b>Programming Languages</b>	Nodejs, Core Java
<b>Web Technologies</b>	HTML, CSS, Bootstrap, Java Script, TypeScript.
<b>Framework</b>	Angular, Angular Material
<b>Development Tools</b>	VS Code
<b>Databases</b>	MySQL, PostgreSQL
<b>Web Services</b>	REST API
<b>Other</b>	Git, Bitbucket, JIRA, JSON, Postman.

## PROFESSIONAL EXPERIENCE:

**Role: Software Trainee**

**PROJECT: Online Restaurant**

Online Restaurant is an interactive web platform dedicated to ordering delicious vegetarian and non-vegetarian biryanis. This user-friendly website empowers customers to explore a diverse menu, view detailed information about each biryani type, and customize their orders effortlessly. Additionally, the platform provides restaurant administrators with tools to manage the menu dynamically by updating existing biryanis, adding new varieties, or removing items as needed.

### Roles and Responsibilities:

- Involved in complete development of **“Agile Development Methodology”** as an individual developer.
- The Presentation tier was developed in **Angular, Angular Material, HTML, CSS, Bootstrap.**
- Worked with different teams such as the UI, Core, Middleware, and back-end teams to integrate with various API.
- Used **Angular material** for creating the **UI components, forms and validations.**
- Implemented **Angular Router** to enable navigation from one view to the next view.
- Used database modeling, administration and development using SQL in **MySQL.**
- Worked as a part of team from **development, testing, code review, built implementation and support.**
- Build and deployed service into lower environment by using **AWS.**

**Environment:** Visual Studio, GIT, Bitbucket, Angular, JavaScript, HTML, CSS, Bootstrap, PostgreSQL, Postman, JIRA.
