### PROJECTS

#### Suriya Mart

📍 Chennai, India

- **Suriyamart** is an e-commerce platform for **furniture and home appliances**, built with **JavaScript, HTML, CSS, and Bootstrap**. Currently, it is undergoing a **migration to Angular** to enhance scalability, performance, and user experience.

#### Yamee cluster

📍 Chennai, India

- Contributed to the development of **Yamee Cluster**, a modern platform designed to equip individuals with real-world software development skills, utilizing **HTML, CSS, JavaScript, Angular, and Bootstrap**. Delivered robust, scalable solutions and currently leading a strategic **migration process** to enhance system performance and scalability. Dedicated to driving innovation and delivering high-quality software solutions in dynamic, fast-paced environments.

#### IPMEGA Softwares

📍 Chennai, India

- **IPMega Softwares** is a software institute that provides internships and web development projects. The website is built with modern web technologies: **HTML** for structure, **CSS** and **Bootstrap** for styling and responsiveness, **JavaScript** for interactive features, and **Angular** for a scalable and efficient user interface.

#### Front End Developer

##### Yamee Cluster Pvt Ltd

📅 01/2023 - Present    📍 Chennai, India

Yamee Cluster is a software development and consultancy firm providing a wide range of IT solutions, including custom development, website design, e-business, content management, systems integration, and corporate training. Founded by experienced visionaries, the company serves both local and international clients, leveraging high-tech expertise to meet diverse software needs.

- At Yamee Cluster, I developed scalable, end-to-end software applications for local and international clients, enhancing user engagement by 30% through improved UI designs. I optimized workflows by automating pipelines, reducing deployment time by 20%, and delivered tailored e-business platforms and content management systems, boosting client efficiency by 25%.
