- ENGLISH

ABOUT ME

Eager to contribute to a dynamic team and gain valuable industry experience. I am an enthusiastic and motivated in developing with a keen interest in Full stack development. Known for my Personal Traits like quick learning , teamwork and I can utilize my strong analytical and problem-solving skills.

PROJECTS

MEDICAL PROFESSIONAL OPTIMIZATION INITIATIVE WITH REACT AND PYTHON FLASK

Description

Our innovative project aims to revolutionize the way healthcare is accessed and delivered. By leveraging advanced technology, we have developed a user-friendly online platform that connects patients with experienced doctors for seamless consultations. This application not only facilitates real-time virtual consultations but also integrates AI-generated medical tips to enhance the overall healthcare experience.

Key features:

Real-Time consultations:

Users can easily book and conduct consultations with licensed doctors, ensuring timely medical advice and reducing the need for in-person visits

AI-Generated Medical Tips:

Our advanced AI engine provides personalized medical tips based on user input and health data, offering valuable insights and preventive care suggestions. These tips are continuously updated to reflect the latest medical guidelines and research.

Technologies Used:

- React JS
- MySQL
- Python
- Flask

Tools:

- Gemini AI
- SQLAlchemy
- Bootstrap
- Redux
- JSON Web Token(JWT)
