OBJECTIVE

Enthusiastic Front-End Developer with a strong foundation in **HTML**, **CSS**, **JavaScript**, **and React.js**. Passionate about building responsive, user-friendly web applications with modern UI/UX principles. Completed hands-on projects, including an **E-commerce website** and a **QR Scanner app**. Seeking an opportunity to apply my skills, learn new technologies, and contribute effectively to a dynamic development team.

TECHNICAL SKILLS

- Front-End Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, React Hooks (useState, useEffect, useContext)
- **UI/UX & Responsive Design:** CSS Flexbox, CSS Grid, Bootstrap, Tailwind CSS, Material UI, Figma (Basic Prototyping)
- API & Data Handling: RESTful APIs, JSON, Axios, Fetch API, LocalStorage, SessionStorage
- : Version Control: Git, GitHub, GitLab
- **Debugging & Performance Optimization:** Chrome DevTools, Lighthouse, Cross-Browser Compatibility, Code Splitting
- Build Tools & Package Managers: npm, Webpack, Babel, Vite
- Deployment & Hosting: Netlify, GitHub Pages

PERSONAL PROJECTS

Student Dashboard Project - (MERN)

Oct-2024 present

- Developed a fully functional student dashboard application for tracking student progress, attendance, and performance.
- Designed and implemented responsive UI components using React.js and Bootstrap.
- Set up RESTful APIs using Node.js and Express.js for seamless client-server communication.
- Used MongoDB to store and manage student data, ensuring data security and scalability. Integrated
- features such as CRUD operations, search functionality, and real-time updates.

E-commerce Website- (React.js)

- Built a fully responsive and user-friendly e-commerce website for seamless online shopping.
- Designed intuitive UI components with React.js and styled them using Bootstrap and CSS.
- Implemented key features like a product catalog, shopping cart, and dynamic product filtering.
- Added interactive client-side functionality using JavaScript to improve user experience.
- Used local storage to persist cart data for enhanced usability.

Food Delivery App -(React.js)

- Built a responsive and interactive food delivery app using React.js for front-end development.
- Designed modern and user-friendly interfaces using Bootstrap and custom CSS styles.
- Created reusable components for features like restaurant listings, food menus, and order summary.
- Implemented dynamic state management and routing for smooth navigation between pages.

COURSES & CERTIFICATIONS

Front-End Development -(September 2024 - November 2024) credential

- Learned HTML5, CSS3, JavaScript, and Bootstrap.
- Built responsive web pages and interactive user interfaces.
- Gained hands-on experience in React.js, React Hooks and component-based architecture.
- Developed dynamic web apps with reusable and optimized components.

ACHEIVEMENTS & EXTRACURRICULAR ACTIVITIES

- Winner, Drawing Competition Awarded first place in a college drawing competition for creativity and skill.
- Typewriting (Junior Level, English) Successfully completed the junior-level English typewriting
- certification. Winner, Cricket Team (College Sports Day) Part of the victorious cricket team during the college sports day, showcasing leadership and teamwork skills.

EDUCATIONAL QUALIFICATION

Bachelor Of Engineering (B.E) - Mechanical Engineering

PGP College of Engineering and Technology, Namakkal 2019-2023

CGPA: 7.63/10
