PROJECTS

1. Mobile Service Center Management System || Github

Tools**: HTML, CSS, Javascript, Python, Django, MySQL**

It is a website of management systems where the service centers pay a monthly fee to the company, aiming to allow users to buy products online with Razorpay payment integration and visit the profiles of service centers. Users can easily repair their mobiles from their respective mobile service centers.

2.Attendance Management System || Github

Tools**: ReactJs,TailwindCSS,NodeJs,Express, MySQL ,Axios**

It is a website of attendance management system where the attendance of the students can be tracked and submitted by trainers through the login system with MySQL database management. It tracks the records in order to the courses. Separate attendance card shows the profile of each student.
