---

## EDUCATION

**Calicut University**                                                                                         2021 - 2024
BSc Computer Science - 90.075 %

---

## PROJECTS

### Chat App ⬈
- **Real-time Communication** – Enables instant messaging between users via text.
- **User Authentication** – Users sign up and log in using credentials like email, phone number.
- **Encryption & Security** – Ensures message privacy using encryption methods like end-to-end encryption.
- **One-on-One** – Supports private conversations.

### OLX Clone ⬈
- Developed responsive user interfaces using **HTML**, **CSS**, and **JavaScript**.
- Built **RESTful APIs** with Node.js and Express.js to handle client requests.
- Designed and implemented **MongoDB** databases to store and retrieve data efficiently.
- Optimized application performance and ensured scalability.

### E-Commerce ⬈
- Developed a full-stack e-commerce application where users can register as sellers to list products and buy products as buyers.
- Built with **React.js** for the frontend, **Tailwind CSS** for styling, and **Express.js** for the backend, ensuring a smooth and scalable experience.
- The platform includes features like user authentication, product management, and a seamless shopping experience.

---
