EXPERIENCE

- **Frontend Developer**
  Vosa Tech • Aug 2024 – Nov 2024
- Specialized in React for building responsive and intuitive UIs.
- Experienced in API integration for seamless frontend-backend communication.
- Skilled in optimizing performance and enhancing user experience.

- **Frontend Developer**
  IconX Technologies • Sep 2023 – Aug 2024
- Built responsive web applications using HTML, CSS, JavaScript, and React.
- Conducted code reviews and implemented API integrations for enhanced usability.
- Optimized performance in collaboration with stakeholders, improving efficiency.

PROJECTS

- **Parlour (Uni Beauty Parlour)**
  Developed a responsive E-commerce Web Application using React, implementing features such as product listing, Wishlist, and Product View with dynamic updates using React state management to handle user interactions like adding items to the cart and viewing product details.

- **NFC (Entrepreneurship Community)**
  Led the NFC Entrepreneurship Community website design, integrating forums, resources, and event calendars with a focus on user-friendly interface and stakeholder collaboration

- **Tuneto (School of Phonics)**
  Designed a mobile-compatible website for Tuneto School of Phonics, showcasing Tuition Courses, expert tutoring, and seasonal camps, with integrated contact forms and social media links. Highlighted the school's environmental initiatives.
