## OBJECTIVE

Driven by a fervent desire for professional growth and a commitment to excellence, I am eager to contribute my skills and knowledge to an organization renowned for its dynamic work culture. As a recent graduate specializing in Angular development, I am keen on harnessing my talents to not only further my personal development but also to make substantial contributions towards achieving organizational objectives.

## Technical Skills:

| | |
|---|---|
| Angular | : Demonstrated ability in creating dynamic and responsive user interfaces, leveraging Angular's robust framework(Angular 18, Angular Material,scss),. |
| React | :Developed dynamic and scalable web applications using React, implementing reusable components, state management with Redux Toolkit |
| C | : Sound understanding of C programming language |
| JAVA | : Knowledgeable in OOP concepts, with basic understanding and limited experience in Java. |
| Database | : Proficient in SQL, capable of designing and optimizing database structures to support application requirements. |

## Soft Skills:

| | |
|---|---|
| Effective Team Player | : Skilled at collaborating with diverse teams to achieve common goals, fostering an environment of cooperation and synergy. |
| Adaptability | : Proven ability to thrive in dynamic work environments, readily adjusting to new challenges and evolving priorities. |
| Rapid Learner | : Possess a keen aptitude for acquiring new skills and technologies quickly, enabling swift adaptation to emerging industry trends and innovations. |

## CURRENT PROJECT

**ZubeBooks (Finance and Control)**                                    **March-2024 to Present**
**Org: Solaris Intellectuals**
**Frontend Developer**

- Contributed to the development and enhancement of a robust B2B Finance and CRM platform tailored for businesses, incorporating features for streamlined account management and financial operations.
- Designed and implemented key functionalities, including account receivables/payables, tree-based hierarchical account structures, and auto-populated forms for efficient data management.
- Integrated payment workflows, file upload functionality with persistent data handling, and advanced tools for monitoring cash flow, managing loans, and tracking transactions.

## PREVIOUS EXPERIENCE:

**HRMS Project**                                                      **Oct-2023 to Jan-2024**
**Client: Solaris Intellectuals**
**Front-end Developer**

- Spearheaded the development of the user interface for the HRMS project using Angular, ensuring a seamless and intuitive user experience.
- Bug Resolution: Identified and addressed bugs identified by the QA team, implementing effective solutions to maintain project integrity and functionality.
- Agile Collaboration: Actively participated as a key member of a 9-person Scrum team, contributing to Daily Scrums and successfully delivering sprint objectives within designatedtimelines
- Issue Tracking and Reporting: Utilized Jira to meticulously track project issues and generatecomprehensive maintenance reports, facilitating efficient resolution of project challenges.

- Stakeholder Engagement: Conducted engaging project demos during stakeholder review calls, effectively communicating project progress and eliciting valuable feedback for continuous improvement

**Contractors Management Project**                                    **Feb-2024 to Feb-2024**
**Client: Solaris Intellectuals**

**Front-end Developer**
In the Contractors Management Project, I assumed responsibility for the design and implementation of the user interface utilizing Angular. This involved:
- Collaborating closely with stakeholders to understand project requirements and design specifications.
- Leveraging Angular's robust framework to craft a user-centric interface that enhances usability and accessibility.
- Implementing best practices in UI/UX design to ensure intuitive navigation and seamless interaction for end-users.

## EDUCATION

B. E Computer Science                                                  2023
Anna University - Rajalakshmi Engineering
CollegeGPA: 8.45

12$^{th}$ Std / Biology - Maths / State board of Education             2019
Rover Higher Secondary School
Percentage: 82.33

10$^{th}$ Std / State board of Education                               2017
Government Higher Secondary School
Percentage: 95.4

## CERTIFICATES

SQL Certificate from Sololearn
Java Certificate from Udemy

## EXTRA CURRICULAR ACTIVITIES

All-rounder in cricket. T20 tournament winning team member.
Volunteered in a HackOverflow event at college.
